RE: Increased natural gas prices

Round Lake Municipal Gas has been put on notice, by our supplier, that market prices for natural gas are increasing during this cold snap.

Demand for natural gas has been very high the past few days due to colder than normal temperatures in our southern states.

Due to this situation City of Round Lake can expect Natural Gas Rates to be substantially higher.

Please stay warm, but conserve natural gas usage by lowering your thermostat a degree or two and other measures to keep warm air inside your home or business.

Ways to Conserve

- ✓ Turn thermostat down a couple of degrees
- ✓ Dress warmer when indoors
- ✓ Open blinds when sunny outside
- ✓ Seal around windows and doors
- ✓ Replace furnace filters

If you have any questions please call City Hall at 507-945-8127.
